

CRDP

PROVIDER BULLETIN

June 8, 2001

FORMULARY ADDITIONS

Effective immediately, following agents are added to the Chronic Renal Disease Program's (CRDP) formulary:

polyethylene glycol (MiraLax®)
doxercalciferol (Hectoral®)
magnesium calcium (MagneBind®)
valacyclovir (Valtrex®)

sirolimus (Rapamune®)
pravastatin (Pravachol®)

➡ **PROVIDERS NOTE:** *Sirolimus (Rapamune®)* and *pravastatin (Pravachol®)* are reimbursable **only** for CRDP transplant cardholders (CRDP Benefit Category 2).

Effective with the date of service of **June 18, 2001**, fenofibrate (Tricor®), will be added to the CRDP formulary.
