## **PROVIDER BULLETIN**

January 14, 2011

### **PART D PARTNER PLAN UPDATE**

#### **WELLCARE PCN**

The WellCare Classic PCN of 01410000 included on the cardholder Medicare Part D plan lists that were previously distributed omitted the leading (or first) zero (0). The BIN/PCN combinations accompanying each member's ID should have been BIN 603286;01410000; **not** 603286;1410000. Claims submitted to WellCare without the leading zero in the PCN will deny.

#### **BIN GRACE PERIOD**

**The BIN “grace” period scheduled to end Monday, January 17, 2011 is being extended until Tuesday, February 1, 2011.**

Reports show claims continue to be submitted using the member's 2010 primary plan BIN; not the member's 2011 primary plan BIN. These rejected primary plan claims are then submitted to PACE and paid. Providers are urged to use this extension to update their billing records so members have the correct co-pay charged and the TrOOP is accurately accumulated.

Questions should be directed to Provider Services at  
1-800-835-4080.
