

PACE/PAP PROVIDER BULLETIN

May 26, 2021

Insulin and HIV Medications UPDATE

PACE is withdrawing the requirement for an appropriate ICD-10 code to be submitted upon all claim submissions for reimbursement of Insulin and HIV medications.

- **PACE currently accepts a diagnosis code when it is submitted as part of the claim.**

The Program thanks the pharmacies that are currently providing that data.

- **The diagnostic information is invaluable to PACE when reviewing a cardholder medication history profile and would ask pharmacies not providing the information to consider doing so in the future.**

Questions may be directed to Provider Services at 1-800-835-4080.
