DATE PRESCRIPTION WRITTEN AND REFILL EDIT CHANGE

A change to the refill limitations was implemented effective April 9, 2021.

Due to COVID-19 and to align with the Medicare Part D plans, original prescriptions or refills for non-controlled substances, with a date of service within 12 months from the date the prescription was written, will be considered for reimbursement.

- **A maximum of 11 refills can be submitted using the same prescription number if the prescription has refill authorization and the refills do not exceed 12 months from the date the prescription was written.**

Schedule II, III, IV, V medications are not included in this change. The refill limits for these medications remain unchanged.
